

Our MISSION

To support the health and welfare of our residents through philanthropy.

Our COMMITMENT

To enhance the lives of our residents, team members, and their families.

Our STORY

The Lifespace Foundation was established in 1992 and is dedicated to fulfilling the needs and aspirations of our residents and enhancing the resident experience. Our goal is to foster a sense of community among our residents and team members, providing opportunities for mutual support and assistance. We want to ensure our residents always have the opportunity for successful and purposeful aging and the peace of mind of having a home for life.

Our foundation is dedicated to bringing charitable initiatives to life. Communities have Foundation Advisory Committees that review requests and determine funding for specific community uses. Donors can support a community-specific fund or one of the Foundation's enterprise-wide funds. The Foundation supports fundraising and connects resources to funded projects and programs.

Our FUNDING AREAS

Community Enhancement Programs

Supports various activities at communities that enhance the quality of life for residents (e.g., veterans memorial, fitness equipment, virtual technology, landscaping, libraries, resident events, etc.).

Team Member Support

Invests in team members' personal and professional growth by providing them with financial support to help pay for their college education, emergency assistance grants, and year-end appreciation bonuses.

Benevolent Care Fund

Supports Lifespace residents who exhaust their financial resources through no fault of their own.
